

## Is your website bringing you enough business?

**For \$249 get a 8-point scorecard on performance of your website.**

1. Discover your website's overall performance grade of A - B - C or D
2. Get a report on your website's speed, image size, loading time — online visitors experience
3. Learn how customers see your website across viewing platforms of desktop / tablet / mobile
4. Learn if your website is "mobile friendly" for customers and for better Google ranking
5. See if your website is registered with Google... no registration equals lowers page rank.
6. Learn about the quality of your website code. Is done properly or poorly?
7. Learn how many other websites link to your website
8. Confirm if your website is secure with a SSL certificate — as Google now requires.

**Broken website? Like a broken door bell, call us to fix it or say goodbye to new visitors every day.**
